

Message from Clara Calou, President

Dear AMFCE Members,

It is a honour, which goes together with its responsibilities, to be today the President of AMFCE.

AMFCE is today a well-known institution thanks to pioneer women entrepreneurs. Nine presidents have paved the way and I feel that with the effort of one and all we will go much further and succeed in our endeavours.

Personally I wish to put more effort on making women entrepreneurs in Mauritius work together. By now we know each other and the market is small and we know who are the reliable people we can work with - of course men are not to be excluded.

As we are also affiliated or member of other associations we should have common goals to help entrepreneurs consolidate their position and become more sustainable for the future.

Message from Clara Calou, President

We should also consider working with the women entrepreneurs of the region to build a strong vertical value chain.

We have experience on how to manage a company in different sectors , we work with international standards & have export facilities , in Rodrigues women know how to fish and naturally preserve their catch, in Madagascar they know how to make natural silk, have virgin soil which would facilitate bio cultivation, have precious and semi-precious stone for jewelry.

If we want to export we have to work together, we have already opened the door to working together through our Mentoring program for the region.

My message to you ladies is 'Don't give up on your dreams, keep sleeping or else wake up and join us to make things happen'

2017

Annual General Meeting

- The 2017 AGM of the AMFCE was held on Thursday 23rd March 2017 at the Mauritius Gymkhana Club.
- The AGM was attended by 25 members and the Agenda items were dealt with.
- It is worth noting that the President's Report was presented in a very innovative way – that is – projection of a short movie showing the accomplishments of the Association during the past two years and supported by testimonials from the Australian High Commissioner, Past Presidents and Members.

The purpose of the 10 - Year SME Master Plan is to trigger major paradigm and structural shifts towards an entrepreneurial economy. The aim is to encourage the emergence of a new breed of SMEs that can foster market and technology-driven advancements to create more high-skilled jobs in all economic sectors.

Commenting on the plan, the AMFCE President stated that: *'the plan was long overdue and it is most welcomed but 10 years is too long and we should think of updating same at least every 3 years. SMEs should work together for advancement and also to be able to export.'*

A focus group discussion on the theme: '**Promoting Female Participation in the Economy.**' was facilitated by Ms R. Mooneeram and attended by the AMFCE and other stakeholders, namely WIN and a number of Women Associations.

The outcome of the discussions and an action plan which will be formulated by the NPCC will thereby be submitted to relevant authorities/stakeholders to instigate action at their end.

AMFCE has also requested inputs from its members on key issues affecting the woman entrepreneur's participation in the economy and same will be forwarded to the NPCC and other stakeholders for action.
